

THE LEPROSY MISSION'S
**GLOBAL DAY OF
PRAYER**

Global Prayer Topics

- **Partnerships** – for TLM’s work alongside other organisations such as ILEP, Global Partnership for Zero Leprosy (GPZL), Leprosy Research Initiative (LRI), NTD NGO Network (NNN), governments, UN agencies, World Health Organisation – no disease has ever been defeated by a single organisation
- **Partnerships with Churches** – for TLM Members to be able to effectively work alongside others in the body of Christ in order to see Leprosy Defeated and Lives Transformed.
- **Christ-centred organisation** – for TLM to retain its strong Christian identity, to live out its values, and to practice integral mission in all it does.
- **TLM Global Fellowship Board** – for wisdom and discernment as they govern and oversee the work of the Global Fellowship.
- **TLM Leadership Development Programme** – for the development of leadership across the Global Fellowship in order to see Leprosy Defeated and Lives Transformed. Pray for Peter Walker, Stephen Chinnaswamy, and Vivek Albuquerque as they lead the LDP programme.
- **Leprosy Expertise** – for expertise in treating, diagnosing and managing leprosy to be retained across the Global Fellowship, particularly as experienced leprosy practitioners retire.
- **Research** – That we would understand transmission better (e.g. modes of spread, environmental reservoirs etc) so we can prevent it, that we would be able to develop new improved drug treatments for leprosy reaction (especially ENL), that we would get an effective regime for leprosy prevention (either vaccine, prophylaxis or both), that we would be able to develop an early diagnostic test effective for all types of leprosy.
